Subject Index

Abdominal angina
  Buerger's disease, 69
Acupuncture
  vs metoprolol, migraine prophylaxis, 451
ADH defect
  spontaneous remission, 75
Adrenaline
  measurement, and physical working capacity, 229
Agnogenic myeloid metaplasia
  and sarcoidosis, 175
AIDS *see* HIV-infection
Amputation
  vs preventive care, economic analysis, 463
Amyloidosis
  gastrointestinal disease, and body mass index, 479
Angina
  diagnostic potential in coronary care, 473
  epidemiology in coronary patients, 263
  unstable, thromboxane metabolites, 153
Angiotensin II
  in uninephrectomized subjects, 359
Angiotensin-converting enzyme
  activity, and vasoactive hormones, 233
Angiotensin-converting enzyme inhibitors
  and survival times in heart failure, 595
Aniline
  causing methaemoglobinaemia, 279
Anticoagulants
  'catastrophic antiphospholipid syndrome', 81
  continuous infusion, diurnal effects, 411
  trial in deep vein thrombosis, 457
Antihypertensive therapy
  stopping, in elderly patients, 577
Antiphospholipid antibodies
  'catastrophic antiphospholipid syndrome', 81
Arginine vasopressin
  short-term effects of eating, heart failure patients, 233
Asystole
  following electroconvulsive therapy, 275
Atherosclerosis
  type III hyperlipidaemia, 425
Atrial natriuretic peptide, heart failure patients
  short-term effects of eating, 233
  survival times, 595

Beta adrenergic agonists
  following ECT, asystole, 275
Biological rhythms
  diurnal effects of continuous infusion heparin, 411
  and light, 5
Blood pressure
  ambulatory monitoring after stroke, 343
  and glomerular leakage, in diabetes mellitus, 297
  Hypertension in Pregnancy Offspring Study, 347
Body mass index
  and malabsorption, in familial amyloidosis, 479
British Regional Heart Study risk score
  carotid intima-media thickness, 431
Budd–Chiari syndrome
  use of tissue plasminogen activator, 85
Buerger's disease
  intestinal type, 69

Calcipotriol
  excessive topical use, causing hypercalcaemia, 281
Calcium channel blockers
  causing paralytic ileus, 613
Captopril
  effects on renal haemodynamics, uninephrectomized subjects, 359
Cardiac arrhythmias
  endogenous digoxin-like factor, 63
  supraventricular tachycardia, carotid sinus massage causing monoplegia, 379
Cardiomyopathy
  peripartum, 493
Cardiovascular disease
  coronary risk factors
    adrenaline/noradrenaline measurement, 229
    diabetes and hypertriglyceridaemia, 217
    physical working capacity, 229
  heart failure
    diurectic resistance, furosemide infusion, 329
    eating, effects, 233
    natriuretic hormones, 515
    neuropeptides and catecholamines, 595
    thromboxane metabolites, 153
  see also Myocardial infarction
Carotid intima-media
  thickness, British Regional Heart Study risk score, 431
Carotid sinus massage
  followed by monoplegia, 379
Catecholamines
  and neuropeptides, survival times in heart failure, 595
Central pontine myelosis
  chronic hyponatraemia, 497
Cerebrovascular disease
  ambulatory monitoring abolishing 'white coat effect', 343
  haematocrit levels, risk in hypertensives, 163
  oedema, chronic hyponatraemia, 497
Chest pain *see* Angina
Cholesterol, LDL
  egg consumption, 249
  gemfibrozil treatment, 31
  pseudoheterozygous hypercholesterolaemia, 169
  see also Lipoproteins
Chronic lymphocytic leukaemia
  chylothorax complications, 375
Chronobiology in medicine, 5
Chylothorax
  complicating chronic lymphocytic leukaemia, 375
Cigarette smoking
  ADH defect, 75
  Buerger's disease, intestinal type, 69
Cicadian rhythms
  diurnal effects of continuous infusion heparin, 411

Coagulation factors
deficiency, haemophilic arthropathy, follow-up, 239
Cobalamin malabsorption
Good's syndrome, 179
Coeliac disease
steroids, osteomalacia following, 185
Collagen
T-cell interactions in arteritis, 609
Coronary heart disease
angina
diagnostic potential, 473
epidemiology in coronary patients, 263

coronary risk factors, 217, 229
epidemiology of waiting list, 263
Helsinki Heart Study follow-up, 31
unstable angina, thromboxane metabolites, 153

Deep vein thrombosis
diagnosis, D-dimers, 143
silent pulmonary embolism, 457
Denmark (Funen)
prevalence of insulin-treated diabetes mellitus, 405
Diabetes insipidus
spontaneous remission, 75
Diabetes mellitus
black people, southern Africa, 137
as coronary risk factor, 217
foot ulcers, economic analysis of care, 463
insulin-treated, prevalence, Funen, Denmark, 405
systemic blood pressure and glomerular leakage, 297
Diabetes mellitus, IDDM
retinopathy progression, 353
Diabetes mellitus, NIDDM
insulin treatment, cardiovascular disease risk factors, 253
Didanosine therapy, in HIV-infection, fulminant hepatic failure with lactate acidosis, 367
Digoxin-like factor
myocardial ischaemia, 63
Dilated cardiomyopathy, 493
Diltiazem
causing paralytic ileus, 613
Diuretic resistance
congestive heart failure, continuous infusion of furosemide, 329
Duodenal ulcers *see* Peptic ulcers
Dyslipidaemia
obesity in syndrome X, 51
Dyspepsia
functional, personality patterns, 589

Economic analysis of care of diabetic foot ulcers, 463
Egg consumption
and cholesterol levels, 249
Elderly people
stopping antihypertensive therapy, 577, 581
Electroconvulsive therapy
asystole following, 275
Endogenous inhibitors
digoxin-like factor, myocardial infarction, 63
Endothelium and ECM proteins
T-cell interactions, 609
Epinephrine
measurement, and physical working capacity, 229

Extracellular matrix proteins
T-cell interactions in arteritis, 609

Familial amyloidosis
malabsorption, body mass index, 479
Familial (type III) hyperlipidaemia, 425
Fibrinolysis
insulin resistance syndrome, 419
Fibronectin
T-cell interactions in arteritis, 609
Foot ulcers
diabetes mellitus, economic analysis of care, 463
Furosemide, continuous infusion, congestive heart failure and diuretic resistance, 329

Gastrointestinal disease
diltiazem-induced paralytic ileus, 613
and familial amyloidosis, 479
Gemfibrozil
Helsinki Heart Study follow-up, 31
Glomerular leakage
and systemic blood pressure, in diabetes mellitus, 297
Good's syndrome
and cobalamin malabsorption, 179

Haematocrit levels
and stroke risk, in hypertensive subjects, 163
Haemophilia A
in Iceland, 443
Haemophilic arthropathy
synovectomy, follow-up, 239
Hashimoto's thyroiditis, 271
Heart failure *see* Cardiovascular disease
Heart rate, age-dependent influence, Doppler indexes of left ventricular filling, 435
Helsinki Heart Study
follow-up, 31, 41
Heparin
continuous infusion, diurnal effects, 411
Hepatic failure
with lactate acidosis, didanosine therapy in HIV-infection, 367
Hepatic vein thrombosis
tissue plasminogen activator, 85
HIV-infection
didanosine therapy, fulminant hepatic failure with lactate acidosis, 367
Hypercalcaemia
in ichthyosis, caused by calcipotriol, 281
Hyperinsulinaemia
obesity in syndrome X, 51
Hypertension
absence in pheochromocytoma, 373
ambulatory monitoring abolishing white coat effect, 343
elderly patients, stopping antihypertensive therapy, 577, 581
haematocrit levels and stroke risk, 163
Hypertension in Pregnancy Offspring Study, 347
natriuretic hormones, 543
retinopathy, progression in IDDM diabetes mellitus, 353
systemic blood pressure and glomerular leakage, 297
treated, diabetes and hypertriglyceridaemia as coronary risk factor, 217
Hypertriglyceridaemia
as coronary risk factor, 217
and type III hyperlipidaemia, 425

Hypoglycaemic agents
secondary failure, 253
Hyponatraemia, chronic
central pontine myelosis, 497

Iceland
mild haemophilia A, 443
Ichthyosis
vitamin D treatment causing hypercalcaemia, 281
Ileus
diltiazem-induced, 613
Immunotherapy
Vipera berus envenomation, 57
Insulin
fasting levels, and vascular risk factors, 603
obesity in syndrome X, 51
prevalence of insulin-treated diabetes, 405
resistance syndrome, cardiovascular risk factors, 419
sensitivity, metformin and metoprolol CR effects, 335
treatment in cardiovascular disease, risk factors in NIDDM, 253
Insulinoma
octreotide treatment, 245
Ischaemic heart disease *see* Cardiovascular disease; Coronary heart disease

Labetolol
following ECT, asystole, 275
Left ventricular filling
age-dependent influence of heart rate on Doppler indexes, 435
Leukaemias
agnogenic myeloid metaplasia, 175
chronic lymphocytic, chylothorax complications, 375
Light
and biological rhythms, 5
Lipoproteins
apolipoprotein (a), in type III hyperlipidaemia, 425
in insulin treated NIDDM diabetics, 253
pseudoheterozygous hypercholesterolaemia, 169
see also Cholesterol, LDL

Malabsorption
and body mass index, in familial amyloidosis, 479
Melatonin
biological rhythms, 5
Metformin and metoprolol CR
effect on insulin sensitivity, 335
Methaemoglobinaemia
caused by petrol octane booster, 279
Metoprolol
vs acupuncture, migraine prophylaxis, 451
Microalbuminuria
in insulin treated NIDDM diabetics, 253
Microcephaly
pituitary carcinoma, 183
Migraine prophylaxis
vs acupuncture, metoprolol, 451
MMPI
personality patterns, patients with ulcers, 589
Monoplegia
following carotid sinus massage, 379
Myeloid metaplasia
and sarcoidosis, 175

Myocardial infarction
angina characteristics in diagnosis, 473
creatine kinase-MB concentration, 211
endogenous digoxin-like factor, 63
in pregnancy, 487, 489
thromboxane metabolites, 153
see also Cardiovascular disease
Myotonic dystrophy
measurement of deterioration, 205
selenium–vitamin E treatment, 205

Na,K-ATPase
digoxin-like factor, 63
Natriuretic hormones
biochemistry, 561
historical review, 507
physiology, 527
use in heart failure, 515
use in hypertension, 543
Neuropeptides
and catecholamines, survival times in heart failure, 595
and short-term effects of eating, heart failure patients, 233
Noradrenaline
measurement, and physical working capacity, 229
Northern Ireland
fasting levels of insulin, and vascular risk factors, 603

Obesity
syndrome X, 51
Octreotide
treatment for insulinoma, 245
Osteomalacia
following steroids in refractory coeliac disease, 185

Paroxysmal nocturnal haemoglobinuria
hepatic vein thrombosis, 85
Peptic ulcers
personality patterns, 589
Peripartum cardiomyopathy, 493
Pernicious anaemia
and Riedel's thyroiditis, 271
Personality patterns
peptic ulcers, 589
Petrol octane booster
causing methaemoglobinaemia, 279
Pheochromocytoma
without hypertension, 373
Pituitary carcinoma
and pulmonary stenosis, with microcephaly, 183
Plasminogen activator inhibitor type 1 (PAI-1), 85, 253, 335, 419
Pregnancy
acute myocardial infarction in, 487, 489
Hypertension in Pregnancy Offspring Study, 347
Pulmonary embolism
silent, in DVT, 457
Pulmonary stenosis
and pituitary carcinoma, 183

Renal haemodynamics
uninephrectomized subjects, 359
Research fraud, 103
Retinopathy progression
IDDM diabetes mellitus, 353

Riedel's thyroiditis
and pernicious anaemia, 271

Sarcoidosis
and agnogenic myeloid metaplasia, 175
Selenium–vitamin E treatment
myotonic dystrophy, 205
Smoking *see* Cigarette smoking
Snakebite
treatment, 57
Sodium
chronic hyponatraemia, 497
renal haemodynamics, uninephrectomized subjects, 359
see also Natriuretic hormones
Somatostatin receptors
octreotide, treatment for insulinoma, 245
Steroids
in refractory coeliac disease, and osteomalacia, 185
Stroke *see* Cerebrovascular disease
Substance P
and survival times in heart failure, 595
Syndrome X
obesity, 51
Synovectomy
haemophilic arthropathy, follow-up, 239

T-cell interactions
endothelium and ECM proteins, in arteritis, 609
Takayasu arteritis
T-cell interactions, 609
Tendon xanthomas
pseudoheterozygous hypercholesterolaemia, 169
Thromboangiitis obliterans
intestinal type, 69
Thrombosis
continuous infusion heparin, diurnal effects, 411
see also Deep vein thrombosis
Thromboxane metabolites
in heart failure, 153
Thymoma
with immunodeficiency, Good's syndrome, 179
Tissue plasminogen activator
hepatic vein thrombosis, 85
in insulin treated NIDDM diabetics, 253
metformin and metoprolol CR effects, 335
Trigger point inactivation
vs metoprolol, migraine prophylaxis, 451

Ulcers *see* Peptic ulcers

Vascular disease
fasting levels of insulin, 603
T-cell interactions, Takayasu arteritis, 609
vessel graft in Buerger's disease, 69
Vispera berus envenomation
treatment, 57
Vitamin D
excessive topical use, 281
Vitamin E
myotonic dystrophy, 205
von Willebrand factor
and insulin resistance syndrome, 419

Waiting list
epidemiology in coronary patients, 263
